

USED OIL & FILTER RECYCLING

Tips for recycling your used oil and filters

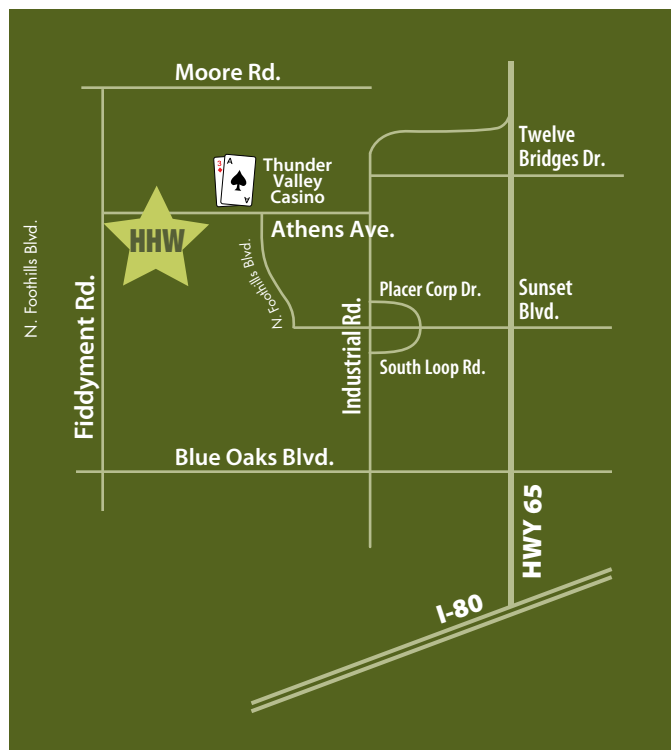

1. Used motor oil and filters should be taken to one of the centers listed.
2. Call site first to confirm hours, materials, and quantities accepted.
3. Transport oil in leak-proof tightly sealed container. Put oil filter in a ziplock bag or other leak-proof container. Most centers accept up to five gallons at one time. Call ahead for quantities accepted.
4. Always wait for an attendant to accept the used oil.
5. Used motor oil contaminated with water or other automotive fluids should be taken to the WPWMA HHW Facility.

Tahoe City Chevron
Service*
310 River Rd.
Tahoe City, CA
(530) 583-0211

*Accepts used oil filters.

TRANSPORTING TIPS

- If possible, keep products in their original, tightly-sealed containers.
- Label materials not in their original containers.
- Place leaking containers in tightly-sealed, labeled plastic containers.
- Do not mix materials in the same container.
- Sort products by material type and transport similar products together to avoid potentially dangerous chemical reactions.
- Pack containers upright in a cardboard box or rigid plastic container for transporting.
- Transport in car trunk or truck bed.

REDUCE THE POTENTIAL FOR DANGER

REDUCE

Buy fewer hazardous products; purchase non-hazardous alternatives.

Purchase small sizes of hazardous products. Buy and use only what you need.

SAFE USE

Always follow a hazardous product's directions for safe use.

Completely use the product. Give leftovers to a friend or neighbor to use.

PROPER DISPOSAL

Take unwanted hazardous products to the WPWMA's Household Hazardous Waste Facility.

IMPROPER DISPOSAL

Never throw HHW into the trash.
Never dump HHW down storm drains.
Never pour HHW on the ground.
Never burn HHW.

HOUSEHOLD HAZARDOUS WASTE Recycling & Disposal

ACCEPTABLE ITEMS
